JUDICIAL

Convention Will be Held at Mt. Vernon Thursday—Five Candidates Seek Nomination.

The advance guard for Judge John David Jones' nomination for Circuit Judge at the Democratic convention in Mt. Vernon tomorrow, left Newark this afternoon for that city. They were Edward Kibler, Roderic Jones, and J. Howard Jones. Messrs. James R. Fitzgibbon, Phil B. Smythe and T. B. Fuiton will leave for Mt. Vernon tonight. The Newark delegates are very hopeful of landing their man. The fight, however, will be an interesting one, for there are five candidates in the field, Judge R. M. Campbell of Ashland, Judge Wellington Stillwell of Millersburg, Judge M. R. Ream of Tuscarawas, Judge R. M. Voorhees of Coshocton, and Judge John David Jones of Newark. The balance of the Licking county delegation will leave for Mt. Vernon in the morning, and judging the future by the past, the nomination will probably be made before the Advocate goes to press Thursday.

LITTLE DAUGHTER

WILL APPEAL TO GOVERNOR'S DAUGHTER'S TO SAVE HER FATHER'S LIFE.

Edna Billik Has Not Abandoned Hope That Her Father Will Not Hang on Friday.

Chicago, June 10.—Though nearly all friends of Herman Billik have abandoned hope of saving his life, his ten-year-old daughter, Edna, has not. In a final effort to prevent the execution of her father, she has written a letter to Frances Deneen, the little daughter of Governor Deneen, asking the governor's daughter to plead with her father to be merciful to Billik. This is Edna Billik's trump card. If it fails Herman Billik must hang next Friday for the murder of the family of Martin Vrzal. Attorney Gregory, representing Herman Billik, today filed in Federal Judge Landis' court a petition for a writ of habeas in an effort to take Billik out of the hands of the county authorities. Judge Landis will hear the case tomorrow. The petition sets forth that the sentence of Billik was not formal, inasmuch as the Judge failed to ask him if he had anything to say.

CHOICE

Of the President and Taft is Said to be Cortelyou

FRIENDS ARE ACTIVE

Secretary's Boomers are Headed for Convention City

Fairbank's Recent Statement It is Considered Has Put Him Out of the Running.

Washington, June 10.—Notwithstanding the announcement that the friends of Secretary Cortelyou would journey to Chicago today to start a full fledged boom for the secretary of the treasury as a vice presidential candidate, and the conference with the President of Governor Gould, in-

SENATOR ALBERT J. BEVERIDGE Replaced by Senator Burrows as Chairman of Convention.

dorsed for the office by the Massachusetts state convention, there is no reason to believe that Senator Jonathan Dolliver, of Iowa, is not the candidate looked upon with most favor by the President and Secretary Taft.

It is asserted that the President and Secretary Taft have been keeping hands off in this matter, being content to permit the convention to have its own way in selecting the running mate for the candidate it is expected to nominate for the presidency. Still, an expression of approval or disapproval from those so potent in controlling affairs up to date in Chicago would go far toward the making or unmaking of a vice presidential candidate.

There was a time, a few weeks back, when the availability of Vice President Fairbanks for another term was being seriously but quietly considered by the Taft managers. The recent action of the managers on behalf of Mr. Fairbanks with regard to

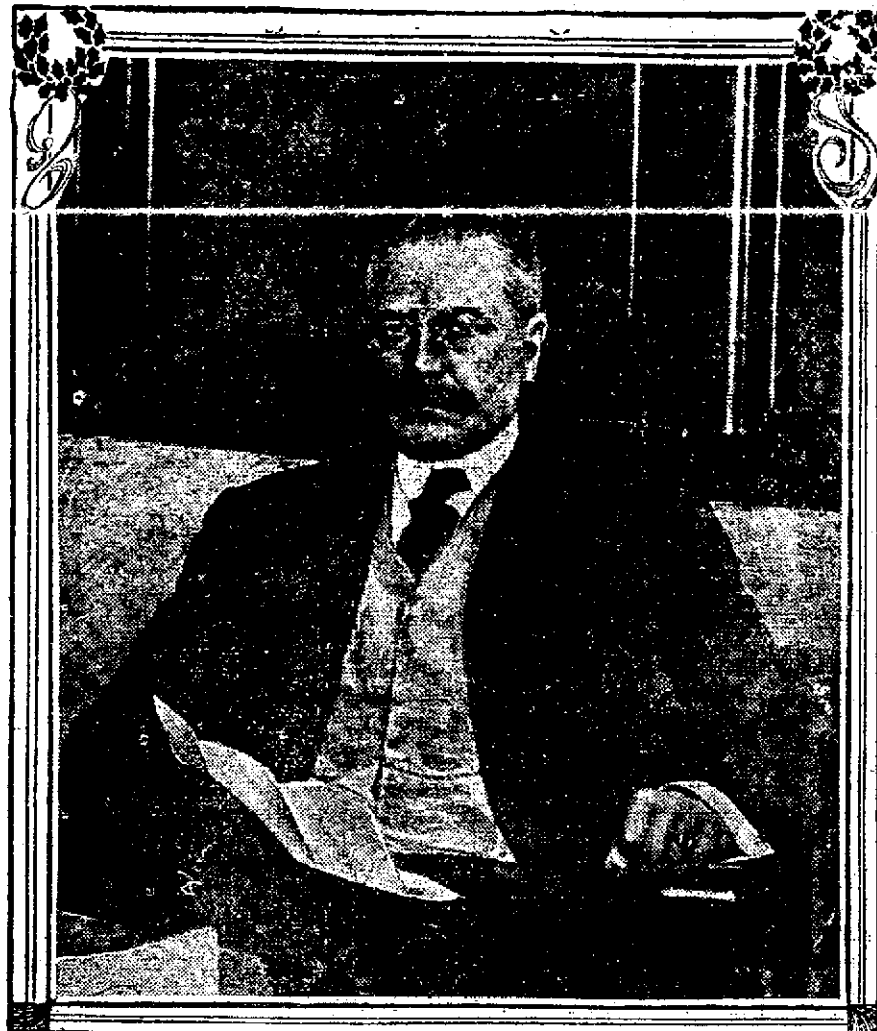

May Second Taft's Nomination.

the admission by the national committee of the contested Taft delegations from the Southern states, it is claimed, has made it impossible for the Taft managers to accept Mr. Fairbanks as a candidate even if he would take the place.

Then came the Billiver boom, the argument being advanced that the Iowa Senator is one of the best stump speakers in the party, a man of strong physique, good voice and eloquent of words, capable of making a whirlwind campaign around the country somewhat after the fashion of William Jennings Bryan, who, if the Democratic candidate, is expected to keep things lively and the railroads busy carrying him from place to place in his swing around the circle.

Expediency, however, may suggest the advisability of selecting the vice

presidential candidate from New York, as there has been considerable discussion to the effect that, owing to the attitude of organized labor in that state, there is danger of Mr. Taft losing it. If the leaders are convinced there is reason for this fear the convention probably would look to New York for the candidate for second place. In that event there are numerous receptive candidates willing to be put on the active list.

The elimination of Gov. Hughes as a presidential possibility gives the friends of Secretary Cortelyou the opportunity to come out in his support for the vice presidency. The report was sent out from Washington that, while Secretary Cortelyou has taken no steps in this matter, his friends have not been idle. As a condition precedent to the inauguration of his boom it was stated that "there had first to be ascertained the attitude of President Roosevelt and Secretary Cortelyou is not disapproved of by the administration and Taft forces if, indeed, the inference is not justified from the tenor of those dispatches that his candidacy has been approved.

IDLE MEN

By Hundreds Answered Fake "Ad"—Mrs. Vail's Revenge on a Neighbor Enemy.

Philadelphia, Pa., June 10.—Because her next door neighbor, F. H. Straus, had caused her arrest as a common scold, Mrs. Pauline Vail, of 2354 North Fourth street, devised a unique scheme of revenge. In Sunday's paper she inserted an advertisement purporting to be from Straus and saying that two drivers were wanted at once at his house.

A regular army of idle men responded, and Mr. Straus was kept busy from dawn until midnight hearing applications.

Mrs. Vail was arrested and held in \$500 bail for court on a charge of malicious mischief.

LABOR FIGHT AT CHICAGO

Samuel Gompers Will Lead the Forces in Demand for Anti-Injunction Plank.

Washington, D. C., June 10.—As the result of the agitation created by the petition of eighteen republicans of New York that the Chicago platform affirm confidence in the integrity of the courts, Samuel Gompers announced yesterday that the entire legislative council of the American Federation of Labor will go to Chicago.

"We will fight it out in Chicago," said Mr. Gompers. "We will go to Chicago and assert our rights in the hope that the great gathering of republicans will not be insensible to them. Organized labor believes in the courts. We have not attacked their integrity, but that the right of injunction has been abused no one will deny." Speaking of the men who signed the petition Mr. Gompers said: "Most of them are attorneys, beneficiaries or representatives of corporations."

Among republicans generally the proposed plank is looked upon as unnecessary were it not for the possibility that an attempt might be made to work into the platform an attack upon the judiciary in continuance of the campaign in Congress for anti-injunction legislation. Leaders believe that the move is intended to forestall a possible repetition of the attack on federal judges in the democratic platform of 1904.

ALLIES

Concede That Taft Will Receive Nomination

ON THE FIRST BALLOT

Providing Decisions in Contest Cases are Not Overruled

Allies are Said to Be Trying to Land Vice Presidency for Dolliver or Sherman.

Chicago, June 10.—According to the closest possible calculation based upon figures conceded by the allies, Secretary of War Taft will receive on first ballot 551 votes, or 60 more than enough to give him the nomination, providing the convention does not take the matter in hand and overrule the decisions now being made in contested cases.

One week ago the allies conceded that Taft would have 359 delegates on the temporary roll. Since then the national committee has added 92 votes to the Taft column by the seating of delegates. There yet remain to be decided contests for 133 seats.

The committee refused to seat the Hughes delegates of the eleventh and twelfth districts of Missouri, deciding in favor of the Taft delegates.

The allies believe that Taft will get at least 10 of these. The allies are now trying to land the vice presidency for one of their men. The most prominently mentioned are Senator Dolliver of Iowa, and Congressman Sherman of New York.

Secretary Cortelyou is also urged by New York interests and he is understood to be a favorite of the Roosevelt administration.

The court gave the boy and his parent a severe lecture. He told the boy he would have to go to school, either here in Newark, or at Lancaster, and that it was up to him to choose. The court placed him under a suspended sentence to Lancaster, and the parents under a suspended sentence of fine or imprisonment.

WHAT IS A "TENDERFOOT?"

The cowboys and hunters of the western prairies are accustomed to allude to the visitor from the "effete East" as a "tenderfoot," which term would imply one that is afraid to march or tramp much and is, in fact, too delicately nurtured to be able to stand the rough life involved in camp life. But there are a good many "tenderfeet" in the civilized communities and they belong to both sexes.

Martyns to corns, bunions and callouses, ingrowing toe-nails and other foot afflictions are too apt to attribute their troubles to constitutional or natural causes rather than to their own carelessness or neglect. If the feet were properly cared for three would be no corns or bunions, nor agonies of that ilk. A shoe that is too large is as bad as a shoe that is too small, and there is no reason for wearing either when a perfectly proper fit is easily obtainable. Coarse, rough linings in a shoe and hard leather are also responsible for the commonest foot troubles. If one values his or her foot comfort at all—and upon it depends frequently one's peace of mind—it is a wise thing to get the foot fitted at the Seymour Shoe company, where easy comfort and elegant neatness are combined with actual economy.

BACK TO OLD KENTUCKY.

Returning from his travels to his old Kentucky home he said he'd settle down for life, and never more would roam; he'd work the old plantation and with the old folks stay and try to make his fortune in the good old-fashioned way. But this he had discovered in his knocking round the earth that many things will happen that do not conduce to mirth; he also found that people no matter where he went, just swore by Spartan White Lead and seemed to be content. Spartan White Lead is a scientifically correct White Lead. Manufactured by the Marietta Paint and Color Co., Marietta, O. Sold by Newark Paint Co., 21 West Church street.

YESTERDAY'S RESULTS.

Lancaster, 4; Marion, 4 (11 innings).
Newark, 5; Springfield, 4.
Mansfield, 10; Lima, 2.

Eddie Ransick's outcasts came to Newark yesterday to play the first of three games that were transferred from their former home, Springfield. From the time the Homeless Hector stepped on the field until the time they caught the cars back to town they were beaten. Their practice in the field showed it and all the talk of Capt. Burr couldn't instill the life spark in them.

On the other hand Manager Eells forced open the lid of the ginger jar, and while he was pitching high class base ball his men were giving him the best kind of support. Not a wobble was to be charged up against them, and with Eells pitching winning ball from start to finish, the ex-Springfield team, now outcasts in the cold, cold world, were completely at his mercy.

The crowd at the game was not large for few of the fans in Molder town knew there was a game scheduled, for the sudden change in the playing could not be extensively advertised in so short a time. The regulars, who could smell a ball game twenty miles off, got next early and were out in force, bringing a fairly good crowd along with them.

Manager Ransick was not with the team and Capt. Burr, a mighty fine fellow and a favorite with Newark fans, is looking after things while Boss Ed is in Portsmouth looking after his new home. Burr worked hard, but the boys acted as though their enforced departure from their old home had taken the spirit from them.

The first score for the Molders resulted in the first through the efforts of the erstwhile Orphans, which, by the way, is a very appropriate name for them now. Snyder jogged to first when Bailey was unable to find the rubber. Snyder took second and Abbott reached first when Bohannon got tangled up with himself on a drive of Doc's. Smith was hit on the left lunch hook and the sacks were full with no one down. Locke dumped out to Burr in deep center and Snyder counted on the sacrifice. Abbott held tight to second and when Burr threw the ball to LaRue, and he threw to Spencer, Smith was out by several feet off first. Gylfi hit out to Dooin.

La Rue looked like a score in the second for a double and a wild pitch with one down placed him on third. Though Whisenor, who played ball with the Molders for about ten minutes, hit to deep center, LaRue still clung to third and died there when Zimpher fled out to Snyder.

Snyder almost counted on a squeeze play in the third, when he reached second on an error of Spencer's. While Abbott was going out with the assistance of Bohannon, Lefty ham-

mered one to third. Smith was at the bat when the attempted squeeze was worked. Bailey, who winds up like a clock, allowed him to almost reach home, then Pop was hit by the ball and was given his base and Snyder was sent back to third. Nary a run was chalked up for the Molders for Locke ended the frame by grounding out.

The Molders "hit 'er up" to the tune of three runs in the fifth after one man was down. Williams whirled out and Eells was hit by Bailey. When Snyder connected for two bases Eells crossed and on Abbott's single Snyder raced home. Smith grounded and Abbott came home when Locke singled. Locke tried to steal second but was caught by a beautiful peg of Zimpher.

Just to show that they could if they wanted to, the Molders sent another runner across in the seventh. Williams started things off with a two sucker to left. Eells made a pretty sacrifice down the first base line and Robert stopped at third. Snyder was on the job again with another hit and Williams came home. Lefty tried hard for second, but Zimpher was again on the job and his peg put Snyder out at second. Abbott hit a high one that Spencer smothered.

This closes the first game of the series. Both teams are playing again this afternoon and will play tomorrow. The Molders then hit the road and go to Marion. From there they travel to Lima and then return home for a series with the Orphans who may belong to Portsmouth by that time. Lancaster and Mansfield also play here before the team again takes the road.

THE LEADERS FIGHT.

Lancaster, Ohio, June 10.—The Links won the first game of the series from Marion in an eleven inning contest by the score of 5 to 4. White pitched a steady game but his loss on balls resulted in runs. Burke was hit freely. An error by Voss in the ninth, allowing Marion to score, sent the game into extra innings. Wilson was put off the grounds for getting into a dispute with the umpire. Score: Lancaster, 5; Marion, 4. First base on error—White. First base on balls—Burke. Sacrifice hits—Humphreys 2, White, King, Burke. Stolen bases—Wolfe, Heller, Seaton. Pitches—Two-base hits—Piper. Errors—Wolfe 2, Ketter. First base on balls—White 5, off Burke, 4. Struck out—Burke 2, White, De by Burke, 1. Wild pitch—Burke. Time of game—1:45.

pitch—Burke. Time—2:05. Umpire—Hart. Attendance—700.

MANSFIELD, 10; LIMA, 3.

Lima, Ohio, June 10.—Mansfield was successful in landing on two of Lima's pitchers Tuesday. Mathay hitting one over the fence. Score: Mansfield, 10; Lima, 3. Run—Jewell, Eby 2, Chaney, Kettler, Reynolds, Eby, A. Kelly. Home-run—Mathay. Three-base hits—Chaney, Kettler. Two-base hits—Chaney, Eby, A. Kelly, Dawson. Sacrifice hits—Schwartz 2, Dawson, Kahl, Breyer. Stolen bases—A. Kelly 2, Kettler 2, Jewell, Eby, Mathay, Eby, Reynolds. Struck out—By Comstock 1; by Schwartz, 1; by Bucholz, 1. First base on balls—off Comstock 1; off Schwartz, 1; off Bucholz, 2. Hit by pitcher—Flood. Time—1:50. Umpire—Handboe. Attendance—500.

THE FOUL LINES.

Yep, the fans are perfectly satisfied that Manager Harry Eells can pitch. The pitcher is a "easy game," but doesn't try to do it all. Instead of wearing himself out he relied upon his fielders, and they did not fail him. His throw to first is quick and accurate and he got his man. His control was good and his curves broke just right, and the fans were mightily pleased with the team's new manager.

Fire Chief Bausch was at the game and was an enthusiastic rooter for the Molders and Harry Eells. The new ginger shown by the team also pleases Chief Bausch very much.

The sun and wind combined caused Locke to misjudge LaRue's drive in the second. It resulted in a two bagger, but didn't count for anything, for LaRue died on third.

In the fifth and sixth innings Eells pitched but four balls.

The double play pulled off by Sandy Murray and Gylfi in the eighth was fast and clean and the fans didn't realize what had happened until they saw the players trotting in from the field.

Murray was playing all the time and had four putouts and four assists to his credit during the game. Locke was the busy outfielder and five putouts are credited to him, the result of his work in the middle garden.

It's mighty good medicine for the fans to see the Molders getting back into the ginger class they used to be, and the spice is more noticeable every game they play.

We ought to capture the other two games from the Ransick squad, and that would be a big help in the percent column.

While Marion was here Manager O'Day tried to make a deal for Lefty Webb. He offered to trade Catcher Lusk for him, but Eells said nay. Webb pitched for O'Day last year, when Charlie was managing the Mattoon team, and the husky little second baseman is stuck on his work.

SURPRISED

Were the Newark Fans When They Heard That Springfield Was Baseball Dead.

There were a good many surprised fans in Newark last night when it became generally known that Springfield was dead as far as base ball is concerned. When the season opened it was thought by many that Springfield would be an excellent city for the sport and that the Ohio State league was fortunate in securing a city of that size.

It has been a failure in every way and drew smaller crowds than some of the towns in the league a third of its size. Eddie Ransick thought he would have a winner there, but there was nothing to it. From the opening of the season the attendance was pitifully poor and Ransick could do nothing else than move.

Fans at Springfield felt mortified to think that their city was not in much larger league, and though they did not support the team that was there last year and it had to be transferred, there were a few fleeing hopes that maybe baseball could be revived.

Base ball in that town will from now on consist of the small amateur games, and doubtless the fans will appreciate them as much as they did league games that were played.

In speaking of the departure of the ball team, the Springfield Gazette says: "Springfield perhaps stands alone with the distinction of having more inhabitants—dead ones—than any other city on the universe. From now on fox and geese, London bridge, button, button, whose got the button, and a few other games of that sort, will furnish the amusement for the Springfield sports. Blindsman Buff is a little rough, but perhaps we can stir up enough nery ones to get a league."

Springfield is now a member of the Down and Out club with their charter framed and hanging high over the principal street. Maybe they can arrange for a mild form of excitement through a sewing circle, or if that's too rough they might get up a literary society.

And this is a mighty good lesson for Newark fans. Some thought the report that money was needed was

simply a bluff, but it wasn't. It happened to be a stern reality that a few red blooded fans appreciated as a result the team will stay for a while at least, but if attendance doesn't warrant keeping the team here, Newark will be classed with Springfield, a dead town.

FIRE AT UTICA

BLAZE STARTS IN A FEATHER BED BUT IS SOON EXTINGUISHED.

Children's Day Services Next Sunday
—Newark Engineer Receives Paving Contract.

Utica, O., June 10.—Fire was discovered by the neighbors at the home of Aaron Livingston in the Washmore addition near the Licking factory about 5:30 Sunday morning. The blaze was in a feather bed in one of the rear rooms upstairs. It was soon extinguished with a few buckets of water. In the meantime all the furniture had been carried out of the house and a fire alarm sounded. The chemical engine was taken part way to the fire, but as it was not needed it was left at Mill street. The cause of the fire is unknown, but one theory is that the bed was set on fire by some bits of superheated plaster lying from the ceiling above a gas light, which had been left burning too high. The damage was small.

The Utica baseball team was again defeated at Stanton park last Saturday by the Newark picked team, by a score of 6 to 3. The Utica team was outplayed at all points by the visitors, but their downfall was in a great measure due to their lack of practice and team work. The Highwater team came here to play Sunday but on finding that they might be arrested and fined for engaging in the contest, they refused to play. A game was then played between two picked teams of Utica players.

PROF. A. D. COLE

HAS ACCEPTED POSITION AT THE OHIO STATE UNIVERSITY.

Former Denison Man Will Head the Physics Department and Will Assume Duties Monday.

The many friends in Newark and Granville of Professor Alfred D. Cole, who for so many years was professor of physics and chemistry at Denison, and who resigned that position in 1901, to accept the professorship of physics at Ohio State university, which he held until last fall, when he accepted the position of professor of physics at Vassar, will be glad to learn that he is again to be at the head of the physics department in Ohio State. At the May meeting of the board of trustees of Ohio State university, President W. O. Thompson was left with the problem of setting who should be at the head of the department of physics after this year. A series of disputes had occurred between Prof. B. F. Thomas, at present at the head of the department, and his subordinates, and these disputes culminated last May in an investigation before the board of trustees. At this investigation both sides were heard and there was a discussion as to the relative merits of the evidence produced. The matter was finally placed in the hands of President Thompson for settlement, and a few days ago he offered the position to Professor Alfred D. Dodridge Cole, formerly professor of physics in Ohio State, and at present professor of that subject at Vassar. Professor Cole accepted the offer and has arrived in Columbus to prepare for the assumption of his new duties.

Professor Cole graduated from Brown university with the degree of bachelor of arts in 1884. He received his master degree from the same institution in 1887, was a graduate student at the Johns Hopkins university from 1884 to 1885 and attended Harvard university, doing graduate work during the summer of 1887. In 1894 and 1895 he attended the University of Berlin and was a graduate student at the University of Chicago in the summer of 1898. In 1885 and 1887 he was instructor in chemistry and physics at Denison university and was acting professor of that subject at that place in 1887 and 1888. He was professor of physics and chemistry at Denison from 1885 to 1901, was a graduate student and assistant in the physics laboratory at the University of Chicago during the summers of 1899 and 1900. In 1901 he accepted the position of professor of physics at Ohio State university, and continued in that position until last fall, when he accepted the position of professor of physics at Vassar.

SENIORS

Of Newark High Busy Preparing for Their Graduating Exercises on Thursday Evening.

The members of the graduating class of the High school are now busy preparing for the commencement exercises to be held in the Auditorium Thursday evening at 8 o'clock. The year's class is one of the largest to be graduated from the Newark High school in a number of years, and represents a fairly equal division of the Latin, German, Latin-German, English and Commercial courses.

An interesting and instructive program of orations, interspersed with musical selections, has been prepared for tomorrow night, and will be followed by the presentation of diplomas by President F. L. Beggs, of the Board of Education.

The students at the High school as well as the pupils in the lower grades are now practically through with the year's work, and welcome the long hoped for summer vacation. Prof. T. Otto Williams and his corps of High school instructors, will be kept busy for a few days longer, but they, too, will soon be able to enjoy their well earned rest, and those teachers whose homes are out of this city, will probably leave some time next week for their various destinations.

The past year has been a most successful one in the city schools in every respect. There has been very little sickness or truancy, and the percentage of students leaving before the year of graduation from the grades to the High school, has been kept at a low figure.

Although the work of the teachers and students at the High school has been interfered with to some extent by the building which has been in progress, they seem amply repaid for their inconvenience by the prospects of greater facilities next year.

HUNGARIAN

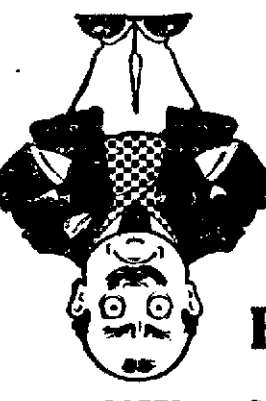

PAPER MONEY FOUND IN EFFECTS OF THE LATE JUDGE THOMPSON.

Was Intimate Friend of Kossuth, Patriot and Statesman, Who Spent Year in the United States.

Quite an interesting historical find was unearthed in the effects of the late Judge Thompson, of Columbus, the father of Mrs. Jerome Buckingham of this city, which recalls the tireless efforts exerted by the Hungarian patriot and statesman, Louis Kossuth, in behalf of his country, a little over a half a century ago.

As will be remembered by some of the older people, Kossuth was the leader of the Hungarian insurrection of 1848-49. He was a member of the Hungarian Diet of 1832-36; was imprisoned by the Austrian government for political reasons from 1837 to 1849; was editor of the "Pest Journal" from 1841 to 1844; and was then elected to the Diet in 1847. The next year emperor Ferdinand was forced to grant an independent Hungarian ministry, of which Kossuth, as minister of finance, was the virtual head. In the same year the dealings of the Austrian court drove the Hungarians to insurrection and, in April, 1849, the Diet declared the independence of Hungary and declared Kossuth governor. In August of the same year he resigned his power into the hands of General Gorgey and after the defeat of the Hungarian forces by Austria went to live in exile in Turkey. In 1851 he came to the United States where he spent a year, later making his home in London and Turin, Italy. He died at the latter place in 1894.

While in this country Kossuth continued his labors in behalf of the Hungarian republic movement and one of his most intimate friends here was the late Judge Thompson, of Columbus. At that time the leaders

These were to have been redeemable at the rate of \$1 each in American currency, but when the independence movement met with failure these were, of course, valueless, except as mementos of the struggle for the Hungarian republic.

A large quantity of these notes were purchased by Judge Thompson and the interesting find in his belongings attracts much interest from the family and friends.

POLICE

Identify Man Killed at Mansfield—Formerly Employed at the Wehrle Factory.

After hearing from Mansfield yesterday regarding the finding of a dead man along the B. & O. tracks, with the information that he was thought to be from Newark, Chief Zergiebel got busy and finally found out who the dead man is supposed to be.

From the secretary of the molders it was learned that a man answering that description worked at Wehrle's in 1903 and that his name was Collar. The chief was told that further information could be secured from Art Campbell, 36 Shanango street, New Castle, Pa.

This information was immediately sent to the Mansfield police over the telephone, and will probably result in the burial of the body.
